

Hand-drawn diagram of a form titled "Add/Edit". The form contains the following fields and controls:

- Customer Name :** A single-line text input field.
- Country :** A dropdown menu with a downward arrow icon.
- Address :** A single-line text input field.
- City :** A dropdown menu with a downward arrow icon.
- Postal Code :** A single-line text input field.
- Phone :** A single-line text input field.
- Buttons:** Two buttons at the bottom, labeled "cancel" and "Save". The "cancel" button has a diagonal line through it, indicating it is disabled.

```

The diagram illustrates the layout of a calendar application. At the top, a **Dialog** box contains a **select Cust** label and a dropdown menu. Below this is a horizontal bar with a **Month** tab, a **Month-Year** label, and three buttons: **New**, **Edit**, and **Delete**. To the left of the **Month** tab is a **previous month.** button, and to the right is a **next month** button. The main area is a calendar grid with 7 rows and 7 columns. The columns are labeled **Mon**, **Tues**, **Wed**, **Thurs**, **Fri**, **Sat**, and **Su**. The first row contains the numbers 1, 2, 3, and 4. A small box with a downward arrow is located in the **Wed** column of the second row, with a note **7 cols down-down for Appt** pointing to it. A **Close** button is located at the bottom right. A bracket on the right side of the grid indicates **7 rows**.

Hand-drawn diagram of a calendar interface. The interface includes a header for "Month-Date" and a grid for days of the week (Mon-Sun). A specific time slot is highlighted with diagonal lines. Below the grid are buttons for "Close", "Appointment display", "New", "Edit", and "Delete". A vertical bar on the right indicates a scrollable area.
